Accessibility

Last Modified 13/06/2017 12:04:34

[Share this page](#)

This website has been designed to be accessible and inclusive to as many people as possible.

Design

Cascading style sheets are used for visual layout. Font sizes are set relatively so that the pages will increase or decrease with your browser settings.

The templates used for creating content on this site have been developed to conform to the WAI 'Double-A' standard. You can find more about the standard by visiting the W3C website.

Readability

We have made every effort to ensure this web site is easily readable using 'plain english'. In addition, we have ensured that the design of this website is not an obstacle to its usability and readability.

Adobe Acrobat PDF documents

Many documents and reports within the site are published in PDF (Portable Document Format). Viewers with visual difficulties may find it useful to investigate services that improve the [accessibility of Acrobat documents](#).
