Ageing well

Last Modified 24/03/2022 10:37:28

[Share this page](#)

Blackpool's population is ageing as a result of increased life expectancy and demographic trends. The health of older people in Blackpool can impact on various aspects of their lives in terms of their ability to keep active and involved in the community. There may be mobility, sensory or cognitive difficulties that mean some older people are less able to get out and about and Blackpool supports individuals and communities where they need extra help to live a good life.
