Births and Deaths

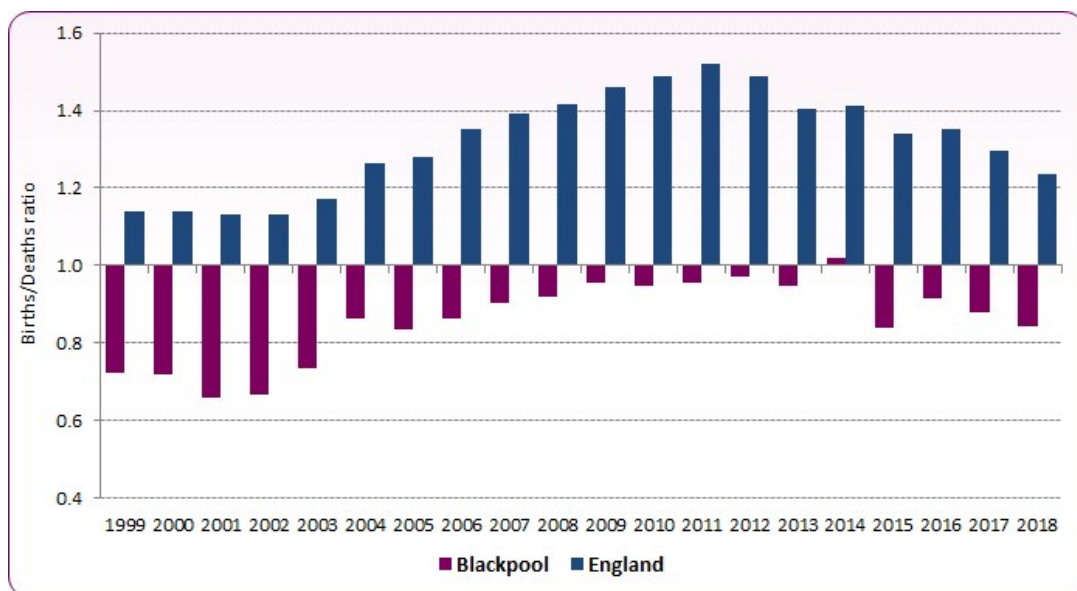

Last Modified 02/01/2020 13:39:52

[Share this page](#)

The ratio of births to deaths ([Figure 1](#)) in Blackpool has shown a consistently greater number of deaths than births apart from in 2014. The trend data shows a gradual overall increase in the birth to death ratio over the period. By comparison there has been consistently more births than deaths across England as a whole though the ratio has fallen slightly in recent years.
