Blackpool GP Practice Populations

Last Modified 04/03/2026 13:37:11

[Share this page](#)

On the 1st July 2022, the **Lancashire and South Cumbria Integrated Care Board (ICB)** replaced the eight CCGs across the area, and is now accountable for NHS spend and performance, and responsible for the day-to-day running of the NHS in Lancashire and South Cumbria. As part of this system, on a more local level Primary Care Networks are groups of GP practices working together with community, mental health, social care, pharmacy, hospital and voluntary services in their local areas.

Currently, the registered population of Blackpool is 178,103 people and is considerably higher than the resident population of the Blackpool Council local authority area (estimated to be around 144,000 in 2024).

Figure 1: GP Practice List Size and Primary Care Network as at February 2026

GP Practice Code	GP Practice Name	Primary Care Network	Number of Patients
P81016	Waterloo Medical Centre	South Central	12,447
P81042	Adelaide Street Surgery	Central West	15,134
P81043	South King Street Medical Centre	Central West	6,679
P81054	Marton Medical Practice	Central	9,385
P81063	St Paul's Medical Centre	Central West	10,972
P81066	Layton Medical Centre	Central	8,331
P81072	Glenroyd Medical Centre	North	13,718
P81073	Cleveleys Group Practice	Torentum	13,201
P81074	Highfield Surgery	South	13,426
P81081	Arnold Medical Centre	South	6,159
P81092	The Crescent Surgery	Torentum	7,616
P81115	Bloomfield Medical Centre	South Central	16,994
P81159	Stonyhill Medical Practice	South	12,148

Department of Health and Social Care **National General Practice Profiles** are designed to support GPs, Primary Care Networks (PCNs), integrated care boards (ICBs) and local authorities to ensure that they are providing and commissioning effective and appropriate healthcare services for their local population. Using a variety of graphical displays such as spine charts and population pyramids, the tool presents a range of practice-level indicators drawn from the latest available data, including:

- Local demography
- Quality and Outcomes Framework (QOF) domains

- Cancer services
- Maternal and child health
- Antibiotic prescribing
- Patient satisfaction
