Citizens Inquiries

Last Modified 15/08/2023 13:24:21

[Share this page](#)

NHS Blackpool CGG, Blackpool Council and specialist community engagement professionals at [Shared Future CIC](#) have undertaken ‘citizens inquiries’ across Blackpool.

These inquiries involved recruiting a number of local residents from within six Blackpool neighbourhoods who were representative of the populations that live there. The resident group then undertook a citizens’ inquiry process to investigate and analyse issues within the local area, ultimately seeking to answer the following questions: ‘For people living within this neighbourhood, what are the key factors which impact upon their health and wellbeing?’

At the end of this process, the resident groups developed a set of recommendations based upon their findings and presented these to the relevant professionals and organisations via a dedicated feedback event. These findings and recommendations are summarised in reports that can be found [here](#):
