The Pharmaceutical Needs Assessment (PNA) seeks to identify those local health needs which could be met by the provision of pharmaceutical services. Blackpool's PNA presents information about the demographics and health priorities of the local population alongside a detailed picture of current pharmaceutical services. The PNA is used as the basis for decision making in response to application for new pharmacies.

The PNA has been published as NHS Blackpool Pharmaceutical Needs Assessment, in accordance with the National Health Service (Pharmaceutical Services and Local Pharmaceutical Services) (Amendment) Regulations 2010.

Pan Lancashire Pharmaceutical Needs Assessment 2018

Partner organisations across the pan Lancashire region, made up of Blackpool, Lancashire and Blackburn with Darwen local authorities, came together to work on an updated Pharmaceutical Needs Assessment.

The executive summary and full PNA are available below. Please note, as the PNA is a large document, it has been split into separate chapters.

The PNA includes information on:

- pharmacies in Lancashire and the services they currently provide;
- relevant maps relating to Lancashire and providers of pharmaceutical services in the area;
- pharmacies in neighbouring HWB areas that might affect the need for services in Lancashire; and
- potential gaps in provision and likely future needs for the population of Lancashire.

 [Executive summary \(161 KB\)](#)

 [Chapter 1 - Introduction \(311 KB\)](#)

 [Chapter 2 - The process \(257 KB\)](#)

 [Chapter 3 - Context \(1.0 MB\)](#)

 [Chapter 4 - Current provision \(3.9 MB\)](#)

 [Chapter 5 - Health needs and locally commissioned services \(2.5 MB\)](#)

 [Chapter 6 - Population and housing \(302 KB\)](#)

 [Appendices \(901 KB\)](#)

Amendment to Chapter 4 – Current provision, p96 - Section 4.6.2 CCG commissioned services

Blackpool's Minor Ailment Scheme has now closed as the NHS encourages people to buy their own medications over the counter. The scheme itself was scrutinised in 2017 and following public opinion the number of medications available on the scheme was reduced. Following guidance from NHS England, the NHS Blackpool Clinical Commissioning Group (CCG) closed the minor ailment scheme completely from 31 July 2018.

The removal of the scheme will not affect prescribing of over the counter items for longer term or more complex conditions or where minor illnesses are symptomatic or a side effect of something more serious. Local pharmacies can offer advice on which treatments are the best and there is a lot of information available online at www.nhs.uk as well as some useful fact sheets covering a range of minor ailments that can be downloaded from the self-care section of www.whyaande.nhs.uk

Below are the Terms of Reference of the steering group that are managing this work, the project plan monitoring progress and the communications plan.

The current opening times of pharmacies can be found on the [NHS Choices](#) website.

Pharmaceutical change memos

Pharmaceutical change memos are issued for the opening or closure of pharmacies, changing of hours or when there are pharmaceutical needs assessment changes that are minor and would be relevant for granting of applications. These replace supplementary statements.
