Public Health Annual Reports

Public Health Annual Report 2018

This year's Annual Report focuses on the health and wellbeing of our children and young people and how investment in these early years can help to build a bright and health future in Blackpool.

Public Health Annual Report 2017 - (13.0 Mb)

This report looks at how the health of residents of Blackpool has changed in the ten years since Dr Rajpura’s appointment as Director of Public Health. It also examines how housing in Blackpool impacts health.

We are keen to gather some feedback on who is using the Public Health Annual Report and how it is used. A short survey, which takes about 5 minutes to complete, can be found here.

Public Health Annual Report 2016 - (3.7 Mb)

This report focuses on the theme of 'community resilience'; the concept of community resilience and what it means for the local population’s health and key projects that are contributing to strengthening community resilience locally.

Public Health Annual Report 2015 - (1.3 Mb)

The health and wellbeing of the population of Blackpool with a focus on health protection, improving health (smoking and healthy weight) and healthcare public health.
