

Appendix 1: Legal requirements for PNAs

Section 128A of the National Health Service Act 2006 (NHS Act 2006) requires each health and wellbeing board to assess the need for pharmaceutical services in its area and to publish a statement of its assessment. Termed a 'pharmaceutical needs assessment', the NHS (Pharmaceutical Services and Local Pharmaceutical Services) Regulations 2013, as amended (the 2013 regulations) set out the minimum information that must be contained within a pharmaceutical needs assessment and outline the process that must be followed in its development.

This section contains an extract from The National Health Service (Pharmaceutical and Local Pharmaceutical Services) Regulations 2013. Please note that the HWB takes no responsibility for the accuracy of the extract. The full text of the Regulations is available at: <http://www.legislation.gov.uk/ukSI/2013/349/contents/made>

1. These regulations may be cited as the National Health Service (Pharmaceutical and Local Pharmaceutical Services) Regulations 2013 and come into force on 1st April 2013.

2. Interpretation (long – see website)

3. The pharmaceutical services the PNA must cover are all the pharmaceutical services that may be provided under arrangements made by the NHSCB for:

- a) the provision of pharmaceutical services (including directed services) by a person on a pharmaceutical list;
- b) the provision of local pharmaceutical services under an LPS scheme (but not LP services which are not local pharmaceutical services); or
- c) the dispensing of drugs and appliances by a person on a dispensing doctors list (but not other NSH services that may be provided under arrangements made by the NHSCB with a dispensing doctor)

4. Information to be contained in PNA

- (1) Each PNA must contain the information set out in Schedule 1.
- (2) Each HWB must, in so far as is practicable, keep up to date the map which it includes in its PNA pursuant to paragraph 7 of Schedule 1 (without needing to republish the whole of the assessment or publish a supplementary statement)

5. Date by which the first HWB PNAs are to be published

Each HWB must publish its first PNA by 1st April 2015.

6. Subsequent assessments

- (1) After it has published its first PNA, each HWB must publish a statement of its revised assessment within 3 years of its previous publication.
- (2) A HWB must make a revised assessment as soon as is reasonably practicable after identifying changes since the previous assessment, which are of a significant extent, to the need for pharmaceutical services in its area, having regard in particular changes to –
 - a) the number of people in its area who require pharmaceutical services;
 - b) the demography of its area; and
 - c) the risks to the health or wellbeing of people in its area,

unless it is satisfied that making a revised assessment would be a disproportionate response.

(3) Pending the publication of a statement or a revised assessment, a HWB may publish a supplementary statement explaining changes to the availability of pharmaceutical services (..) where –

a) the changes are relevant to the granting of applications referred to in section 129(2)(c)(i) or(ii) of the 2006 Act; and

b) the HWB –

(i) is satisfied that making its first or revised assessment would be a disproportionate response, or

(ii) is in the course of making its first or revised assessment and is satisfied that immediate notification of its PNA is essential in order to prevent significant detriment to the provision of pharmaceutical services in its area.

7. Temporary extension of PCT PNAs and access by the NHSCB and HWBs to PNAs

Before the publication by an HWB of the first PNA that it prepares for its area, the PNA that relates to any locality within that area is the PNA that relates to that locality of the PCT for that locality immediately before the appointed day, read with

a) any supplementary statement published by the PCT (..)

b) any supplementary statement published by the HWB (..)

Each HWB must ensure that the NHSCB has access to –

a) the HWB's PNA (including any supplementary statements) (..)

b) any supplementary statement that the HWB publishes (..)

c) any PNA of a PCT that it holds, which is sufficient to enable the NHSCB to carry out its functions under these Regulations

Each HWB must ensure that, as necessary, other HWBs have access to any PNAs of any PCT that it holds, which is sufficient to enable the other HWBs to carry out their functions under these Regulations.

8. Consultation on PNAs

(1) When making an assessment for the purposes of publishing a pharmaceutical needs assessment, each HWB (HWB1) must consult the following about the contents of the assessment it is making—

(a) any Local Pharmaceutical Committee for its area (including any Local Pharmaceutical Committee for part of its area or for its area and that of all or part of the area of one or more other HWBs);

(b) any Local Medical Committee for its area (including any Local Medical Committee for part of its area or for its area and that of all or part of the area of one or more other HWBs);

(c) any persons on the pharmaceutical lists and any dispensing doctors list for its area;

(d) any LPS chemist in its area with whom the NHSCB has made arrangements for the provision of any local pharmaceutical services;

(e) any Local Healthwatch organisation for its area, and any other patient, consumer or community group in its area which in the opinion of HWB1 has an interest in the provision of pharmaceutical services in its area; and

(f) any NHS trust or NHS foundation trust in its area;

(g) the NHSCB; and

(h) any neighbouring HWB.

(2) The persons mentioned in paragraph (1) must together be consulted at least once during the process of making the assessment on a draft of the proposed pharmaceutical needs assessment.

(3) Where a HWB is consulted on a draft under paragraph (2), if there is a Local Pharmaceutical Committee or Local Medical Committee for its area or part of its area that is different to a Local Pharmaceutical Committee or Local Medical Committee consulted under paragraph (1)(a) or (b), that HWB—

(a) must consult that Committee before making its response to the consultation; and

(b) must have regard to any representations received from the Committee when making its response to the consultation.

(4) The persons consulted on the draft under paragraph (2) must be given a minimum period of 60 days for making their response to the consultation, beginning with the day by which all those persons have been served with the draft.

(5) For the purposes of paragraph (4), a person is to be treated as served with a draft if that person is notified by HWB1 of the address of a website on which the draft is available and is to remain available (except due to accident or unforeseen circumstances) throughout the period for making responses to the consultation.

(6) If a person consulted on a draft under paragraph (2)—

(a) is treated as served with the draft by virtue of paragraph (5); or

(b) has been served with copy of the draft in an electronic form, but requests a copy of the draft in hard copy form, HWB1 must as soon as is practicable and in any event within 14 days supply a hard copy of the draft to that person (free of charge).

9. Matters for consideration when making assessments

(1) When making an assessment for the purposes of publishing a pharmaceutical needs assessment, each HWB must have regard, in so far as it is practicable to do so, to the following matters—

(a) the demography of its area;

(b) whether in its area there is sufficient choice with regard to obtaining pharmaceutical services;

(c) any different needs of different localities within its area;

(d) the pharmaceutical services provided in the area of any neighbouring HWB which affect—

(i) the need for pharmaceutical services in its area, or

(ii) whether further provision of pharmaceutical services in its area would secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area; and

(e) any other NHS services provided in or outside its area (which are not covered by subparagraph

(d)) which affect—

(i) the need for pharmaceutical services in its area, or

(ii) whether further provision of pharmaceutical services in its area would secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area.

(2) When making an assessment for the purposes of publishing a pharmaceutical needs assessment, each HWB must take account of likely future needs—

(a) to the extent necessary to make a proper assessment of the matters mentioned in paragraphs 2 and 4 of Schedule 1; and

(b) having regard to likely changes to—

(i) the number of people in its area who require pharmaceutical services,

(ii) the demography of its area, and

(iii) the risks to the health or wellbeing of people in its area.

SCHEDULE 1 Regulation 4(1)

Information to be contained in pharmaceutical needs assessments

Necessary services: current provision

1. A statement of the pharmaceutical services that the HWB has identified as services that are provided—

(a) in the area of the HWB and which are necessary to meet the need for pharmaceutical services in its area; and

(b) outside the area of the HWB but which nevertheless contribute towards meeting the need for pharmaceutical services in its area (if the HWB has identified such services).

Necessary services: gaps in provision

2. A statement of the pharmaceutical services that the HWB has identified (if it has) as services that are not provided in the area of the HWB but which the HWB is satisfied—

(a) need to be provided (whether or not they are located in the area of the HWB) in order to meet a current need for pharmaceutical services, or pharmaceutical services of a specified type, in its area;

(b) will, in specified future circumstances, need to be provided (whether or not they are located in the area of the HWB) in order to meet a future need for pharmaceutical services, or pharmaceutical services of a specified type, in its area.

Other relevant services: current provision

3. A statement of the pharmaceutical services that the HWB has identified (if it has) as services that are provided—

(a) in the area of the HWB and which, although they are not necessary to meet the need for pharmaceutical services in its area, nevertheless have secured improvements, or better access, to pharmaceutical services in its area;

(b) outside the area of the HWB and which, although they do not contribute towards meeting the need for pharmaceutical services in its area, nevertheless have secured improvements, or better access, to pharmaceutical services in its area;(c) in or outside the area of the HWB and, whilst not being services of the types described in sub-paragraph (a) or (b), or paragraph 1, they nevertheless affect the assessment by the HWB of the need for pharmaceutical services in its area.

Improvements and better access: gaps in provision

4. A statement of the pharmaceutical services that the HWB has identified (if it has) as services that are not provided in the area of the HWB but which the HWB is satisfied—

(a) would, if they were provided (whether or not they were located in the area of the HWB), secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area,

(b) would, if in specified future circumstances they were provided (whether or not they were located in the area of the HWB), secure future improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area.

Other NHS services

5. A statement of any NHS services provided or arranged by a local authority, the NHSCB, a CCG, an NHS trust or an NHS foundation trust to which the HWB has had regard in its assessment, which affect—

- (a) the need for pharmaceutical services, or pharmaceutical services of a specified type, in its area; or*
- (b) whether further provision of pharmaceutical services in its area would secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area.*

How the assessment was carried out

6. *An explanation of how the assessment has been carried out, and in particular—*

- (a) how it has determined what are the localities in its area;*
- (b) how it has taken into account (where applicable)—*
 - (i) the different needs of different localities in its area, and*
 - (ii) the different needs of people in its area who share a protected characteristic; and*
- (c) a report on the consultation that it has undertaken.*

Map of provision

7. *A map that identifies the premises at which pharmaceutical services are provided in the area of the HWB.*

Appendix 2: Characteristics of Localities

Defining localities

The PNA regulations require the PNA to define 'localities' to use during this process. Pan-Lancashire is made up of two upper tier local authorities (Blackburn with Darwen and Blackpool) and one county council (Lancashire County Council). Lancashire County Council's 12 lower tier local authorities are commonly used by Lancashire to sub-divide the county.

In considering how to define localities within pan-Lancashire, it was decided to use Blackburn with Darwen local authority, Blackpool local authority and the 12 lower tier local authorities of Lancashire County Council as localities; 14 localities across pan-Lancashire.

Blackburn with Darwen and Blackpool have a population of 157,503 and 142,708, respectively (mid-2023 estimate). The 12 Lancashire County Council localities used in the PNA have an average population of 102,256 (range, 64,469 to 156,411) (ONS, 2023 mid year population estimates) with Lancashire County Council's total population estimated to be 1,270,162.

There was also a practical decision to be made to ensure that the document remained manageable in terms of size. Therefore, it was agreed that data would be presented at locality level.

Upper and lower tier local authorities

Local authorities are well understood by many people and enables comparison of routine data. Pan-Lancashire there are 14 local authorities (two upper-tier and 12 lower-tier).

ICB Sub-locations

There are eight ICB sub-locations across pan-Lancashire and it is intended that the ICBs can use the PNA to inform their commissioning decisions.

Electoral wards

These are key building blocks of UK administrative geography. However, they have limited relevance to commissioning of pharmaceutical services, and are subject to change. The population size can vary from 100 to 30,000 residents.

Super Output Area (SOA)

This is a way of collecting and publishing small area statistics developed by the Office of National Statistics (ONS).¹ They are of a more consistent size than electoral wards, which facilitates an assessment of needs for the local populations. They are not subject to frequent boundary change, so may be more suitable for comparisons over time. In addition, they will build on the existing availability of data for census output areas. SOA data are increasingly used for health needs assessment, health planning and assessing health inequalities.

SOAs come in two levels. Lower Layer Super Output Areas (LSOAs) have a minimum population size of 1,000 people and the average size is 1,500 people. Additionally, LSOAs can be grouped into Middle Layer Super Output Areas (MSOA). The MSOAs population size is minimum 5,000 people and the average is 7,200 people. All MSOAs are contained within a local authority (LA) and do not cross LA boundaries.

Sources of data for small areas

A good source for a wide range of socio-economic data for small areas is the Office for National Statistics' local statistics website (contains information on, for example, demography and migration, economy, education and skills, health and wellbeing, housing and other data (including data from 2021 Census): <https://www.ons.gov.uk/explore-local-statistics/>

Health profiles for the area can be found at: <https://fingertips.phe.org.uk/profile/health-profiles>

Some insight into the health needs of the local population can be gained from the Quality and Outcomes Framework data of the local GPs

<https://qof.digital.nhs.uk/>

Comparing the prevalence of common conditions of the practices within the ICB sub-locations or England average gives an indication of the health of the local population. A more convenient way of viewing individual practices are the practice profiles at <https://fingertips.phe.org.uk/profile/general-practice>

Appendix 3: Methods used to identify providers

This section outlines the methods used for identifying providers of pharmaceutical services.

1. Identification of pharmaceutical service providers

Pharmacies within pan-Lancashire

A list of pharmacies as of 15 January 2025 including postcodes and other information was obtained from NHS England (NHS Lancashire and South Cumbria Integrated Care Board) who maintains the registration database of pharmacies.

Pharmacies outside of pan-Lancashire

Pharmacies in surrounding local authorities were already included in Department of Health and Social Care's Strategic Health Asset Planning and Evaluation tool (SHAPE) used for mapping.

Dispensing doctors (GP) surgeries

NHS Lancashire and South Cumbria ICB confirmed that there are eight dispensing doctors across pan-Lancashire.

Distance selling pharmacies

A list of distance selling pharmacies was obtained from NHS England (Lancashire and South Cumbria).

Dispensing appliance contractors

NHS England (Lancashire and South Cumbria) confirmed that there are four dispensing appliance contractors in pan-Lancashire.

2. Creation of maps

The maps show the location of the pharmaceutical service providers in each of the 14 localities across the pan-Lancashire area.

Maps indicating locations of premises providing pharmaceutical services

Maps showing the locations of premises providing pharmaceutical services were created using Department of Health and Social Care's Strategic Health Asset Planning and Evaluation tool (SHAPE).

Maps indicating travel distance

Travel times quoted have been calculated using SHPAE which is a web enabled, evidence-based application which links national data sets, clinical analysis, public health, primary care and demographic data with information on the location of premises. It includes a fully integrated geographical information system-mapping tool and supports travel time analysis.

Appendix 6: Results of the Community Pharmacy questionnaire

A questionnaire was circulated to 330 Community Pharmacies in the pan-Lancashire area, to gain a better understanding of how they serve the local population. There were 167 returned questionnaires (50.6%), including partial responses. Responses from pharmacies outside of the pan-Lancashire area were filtered out from analysis.

The main findings for pan-Lancashire, as well as a breakdown by upper tier Local Authority for Blackburn with Darwen, Blackpool and Lancashire, are tabled below.

Consultation Facilities

Question: Are consultation facilities on site and do they include wheelchair access?

	Blackburn with Darwen	Blackpool	Lancashire	Pan-Lancashire
Available (including wheelchair access) on the premises	86.7%	79.2%	91.4%	89.2%
Available (without wheelchair access) on the premises	13.3%	12.5%	7.8%	9%
No consultation area available	0.0%	4.2%	0.0%	0.6%
Planned within the next 12 months	0.0%	4.2%	0.0%	0.6%
Other (please specify)	0.0%	0.0%	0.8%	0.6%
Grand Total	100% (15)	*100% (24)	100% (128)	100% (167)

*Figure may not sum to 100% due to rounding

Question: Where there is a consultation area, is it an enclosed room?

	Blackburn with Darwen	Blackpool	Lancashire	Pan-Lancashire
Yes	100.0%	62.5%	91.4%	88%
No	0.0%	8.3%	0.0%	1.2%
No response	0.0%	29.2%	8.6%	10.8%
Grand Total	100% (15)	100% (24)	100% (128)	100% (167)

Appliances

Question: Are appliances dispensed from the premises?

	Blackburn with Darwen	Blackpool	Lancashire	Pan-Lancashire
Yes - All types	93.3%	87.5%	89.1%	89.2%
Yes, excluding stoma and incontinence appliances	0.0%	0.0%	2.3%	1.8%
Yes, excluding stoma appliances	0.0%	0.0%	1.6%	1.2%
Yes, excluding incontinence appliances	0.0%	0.0%	0.8%	0.6%
Yes, just dressings	6.7%	8.3%	3.9%	4.8%
None	0.0%	4.2%	2.3%	2.3%
Grand Total	100% (15)	100% (24)	100% (128)	*100% (167)

*Figure may not sum to 100% due to rounding

Other Facilities – Collection and Delivery of prescriptions (non-commissioned)

The 2025 questionnaire was formatted differently to the 2022 questionnaire so the two cannot be compared in relation to this particular set of questions.

Question: Collection of prescriptions service from surgeries*

	Blackburn with Darwen	Blackpool	Lancashire	Pan-Lancashire
Yes	46.7%	54.2%	50.8%	50.9%
No	53.3%	45.8%	49.2%	49.1%
Grand Total	100% (15)	100% (24)	100% (128)	100% (167)

* Responses count where pharmacies explicitly stated they collect from surgeries.

Question: Delivery of dispensed medicines service – free (non-commissioned)*

	Blackburn with Darwen	Blackpool	Lancashire	Pan-Lancashire
Yes	80%	91.7%	86.7%	86.8%
No	20%	8.3%	13.3%	13.2%
Grand Total	100% (15)	100% (24)	100% (128)	100% (167)

* Responses count where pharmacies explicitly stated they deliver prescriptions for free.

Question: Delivery of dispensed medicines service – chargeable*

	Blackburn with Darwen	Blackpool	Lancashire	Pan-Lancashire
Yes	13.3%	0.0%	8.6%	7.8%
No	86.7%	100%	91.4%	92.2%
Grand Total	100% (15)	100% (24)	100% (128)	100% (167)

* Responses count where pharmacies explicitly stated they deliver prescriptions for a charge.

Question: Is the service available to all patients?*

	Blackburn with Darwen	Blackpool	Lancashire	Pan-Lancashire
Yes	40%	54.2%	49.2%	49.1%
No	60%	45.8%	50.8%	50.9%
Grand Total	100% (15)	100% (24)	100% (128)	100% (167)

* Responses count where pharmacies explicitly stated the service is available to all patients.

Question: If the service is restricted, please confirm the patient groups who may use the service?
[Figures may not add up to 100%]

	Blackburn with Darwen	Blackpool	Lancashire	Pan- Lancashire
No restrictions / no restrictions mentioned	73.3%	91.6%	81.3%	82%
Elderly, vulnerable, housebound	26.6%	4.2%	12.5%	12.6%
Disabled	0.0%	0.0%	3.1%	2.4%
Patients within limited delivery distance	6.7%	0.0%	5.5%	4.8%
Patients within specific criteria / capacity	0.0%	4.2%	2.3%	1.8%
No service			0.8%	0.6%
N/A	0.0%	0.0%	0.8%	0.6%
Grand Total (number)	15	24	128	167

Other Facilities – Languages available

Over 20 distinct languages were specified as spoken by pharmacy staff, apart from English. The proportion of pharmacies offering additional languages to patients is tabled below. Languages mentioned two or more times are shown in the table below. (Percentages may add up to more than 100% as a number of pharmacies provided more than one language).

	Blackburn with Darwen	Blackpool	Lancashire	Pan- Lancashire
English only / other languages not mentioned	6.7%	62.5%	49.2%	47.3%
Arabic	0.0%	4.0%	6.3%	5.4%
Bengali	6.7%	0.0%	2.3%	2.4%
Gujarati	73.3%	24%	20.3%	25.8%
Hindi	13.3%	8.0%	9.4%	9.6%
Malayam	0.0%	0.0%	1.6%	1.2%
N/A	0.0%	0.0%	3.1%	2.4%
Other	13.3%	4.0%	7.8%	7.8%

Polish	6.7%	4.0%	3.9%	4.2%
Punjabi	66.7%	4.0%	27.3%	27.6%
Romanian	0.0%	0.0%	2.3%	1.8%
Spanish	0.0%	0.0%	1.6%	1.2%
Urdu	86.7%	37.5%	33.6%	38.9%
Grand Total (number)	15	24	128	167

Housing Developments

Question: With the projected population growth and a number of housing and other developments taking place across pan-Lancashire, do you have sufficient capacity within your existing premises and staffing levels to manage the potential increase in demand in your area?

	Blackburn with Darwen	Blackpool	Lancashire	Pan- Lancashire
Don't have sufficient premises and staffing capacity and would have difficulty in managing an increase in demand?	0.0%	0.0%	0.8%	0.6%
Don't have sufficient premises and staffing capacity at present but could make adjustments to manage the increase in demand in your area?	26.7%	4.2%	15.6%	15.0%
Have sufficient capacity within your existing premises and staffing levels to manage the increase in demand in your area?	73.3%	95.8%	83.6%	84.4%
Grand Total	100% (15)	100% (24)	100% (128)	100% (167)

Appendix 7: Consultation report

Key	Verbatim Response	Section in PNA	Source	Type	Status	Actions/Comments
1	1. Has the purpose of the pharmaceutical needs assessment been explained? YES	All	Pharmacy provider	General comment	No action taken	No action taken
1	2. Does the pharmaceutical needs assessment reflect the current provision of pharmaceutical services within your area? YES	All	Pharmacy provider	General comment	No action taken	No action taken
1	3. Are there any gaps in service provision i.e. when, where and which services are available that have not been identified in the pharmaceutical needs assessment? NO	All	Pharmacy provider	General comment	No action taken	No action taken
1	4. Does the draft pharmaceutical needs assessment reflect the needs of your area's population? YES	All	Pharmacy provider	General comment	No action taken	No action taken
1	5. Has the pharmaceutical needs assessment provided information to inform market entry decisions i.e. decisions on applications for new pharmacies and dispensing appliance contractor premises? YES	All	Pharmacy provider	General comment	No action taken	No action taken
1	6. Has the pharmaceutical needs assessment provided information to inform how pharmaceutical services may be commissioned in the future? YES	All	Pharmacy provider	General comment	No action taken	No action taken
1	7. Has the pharmaceutical needs assessment provided enough information to inform future pharmaceutical services provision and plans for pharmacies and dispensing appliance contractors? YES	All	Pharmacy provider	General comment	No action taken	No action taken
1	8. Are there any pharmaceutical services that could be provided in the community pharmacy setting in the future that have not been highlighted? NO	All	Pharmacy provider	General comment	No action taken	No action taken
1	9. Do you agree with the conclusions of the pharmaceutical needs assessment? YES	All	Pharmacy provider	General comment	No action taken	No action taken
1	The survey responses should ideally be listed via a questionnaire to enable the public to respond specifically to that assessment and provide specific feedback as opposed to a generic "feedback" listing on the website.	All	Pharmacy provider	General comment	No action taken	The steering group decided that it is easier on respondent if it is feedback rather than a guided questionnaire - a questionnaire can be guided and hence likelihood of limited depth of responses, lack of flexibility and bias from question wording. Asking for an open ended response allows complete freedom of response.
1	Throughout the whole process the pages state 2022 so please ensure this corrected and not ignored.	All	Pharmacy provider	Formatting/data correction	No action taken	All chapters of the draft PNA 2025 have been checked and cannot find reference to PNA 2022 other than on pages where it is included for comparison with PNA 2022
1	P67 - there is a reference to data within the 2018 PNA - you need to check that either the date is correct or the data in reference.	All	Pharmacy provider	Formatting/data correction	No action taken	Document has been checked for reference to PNA 2018 and where it is included it's for comparison purposes.

1	P91 - reference to 100 hour pharmacies and their regulations "were to change" however this has already happened.	Ch 4	Pharmacy provider	Formatting/data correction	Amendment made	Page 91 of the draft PNA 2025 shows a map of Sat/Sun opening in Lancaster. The entire draft PNA 2025 checked for reference to 100 hour pharmacies. Page 81 states that "Under a regulatory change in 2023, 100hrs premises were allowed to vary their hours, whilst providing a minimum of 72hrs – they maintain the requirement to provide six months' notice if they wish to withdraw from the pharmaceutical list." Page 83 mentions reference to 100 hr pharmacies and their regulations "were to change" and this sentence has been deleted.
2	The primary observation of the O&S Committee was the data contained within the Chapter documents and Appendices was not broken down to Electoral Ward level so the Committee could only provide a more generalist rather than specific responses about the Pendle Borough Council area.	PNA chapters	Local authority	General comment	No action needed	Lower tier local authorities were agreed (by the PNA steering group) as the PNA localities, provision was then considered within each locality. The location of pharmacies was considered within each locality and precise location of pharmacies plotted on maps.
2	With reference to the Executive Summary and Paragraph 3, "Findings", comments were made referencing the current number of 326 community pharmacies and whether each provider had different "stocks" of medicines they provided. Concern was expressed over the distance an individual would have to travel to access required medication if one or more pharmacy did not have, in stock, a particular medicine.	Exec summary	Local authority	General comment	Comment forwarded to commissioner	The PNA's remit doesn't cover the operating practice of individual pharmacies. Comment will be forwarded to the LSCICB as commissioner.
2	Paragraph 3.3 – Provision of pharmacy relative to both driving and walking time – statistic highlighted – "100% of Lancashire County Council (LCC) residents in both rural and urban areas can get to a pharmacy within 20 minutes on public transport and 86% of all residents are within a 20-minute walk of a pharmacy". The O&S Committee commented that accessibility by rural bus could be sporadic and not run on some days and whether the nearest available pharmacy would have the required medication in stock (as commented on in paragraph above). It also noted that 14% of all residents were also not within 20-minute walking distance to a pharmacy. This could have a greater impact on elderly and frail residents whose "walking time" could be greatly longer than that of an able-bodied person. (How was the 20-minute walking time calculated – was it for a person of an average age?)	Exec summary	Local authority	General comment	Amendment made	Paragraph 3.3 of the draft PNA 2025 currently states - "100% of Lancashire County Council's residents, in both rural and urban areas, can get to a pharmacy within 20 minutes' drive by car. In Lancashire County Council nearly 100% of residents (not in rural areas) can get to a pharmacy within 20 minutes on public transport and 86% of all residents are within 20-minute walk to a pharmacy." This has been clarified as : "100% of Lancashire County Council's residents, in both rural and urban areas, can get to a pharmacy within 20 minutes' drive by car. In Lancashire County Council's urban areas nearly 100% of residents can get to a pharmacy within 20 minutes on public transport. In Lancashire County Council's urban areas 94% of all residents are within 20-minute walk to a pharmacy." Shape Place (https://app.shapeatlas.net/place/) was used to calculate the walk time. Walk by time assumes walking speed of 5km/hour (3.1 miles/hour). The travel time analysis in Shape Place is brought in from Targomo (https://www.targomo.com/). For walk, bike, and car modes, the coverage comes from OpenStreetMap project, and is global in nature. For transit mode, coverage is determined by available GTFS data. The Lancashire HWB agreed that highly rural areas of Lancashire County Council should be able to get to a pharmacy within 20 minutes by car. The Lancashire Health and Wellbeing Board agreed the following travel

						time criteria for the PNA 2025: A hybrid 20-minute drive time for highly rural areas coupled with a 20-minute walk or 20-minute public transport for built-up areas.
2	Paragraph 3.8 – User Experience – the O&S Committee was pleased to see that the vast majority of respondents rated their overall experience of accessing pharmacy services as excellent or good but added a note of caution that this was only from a small total of 254 respondents covering a large geographical area.	Exec summary	Local authority	General comment	No action needed	The user experience survey was advertised via various channels including the local Healthwatches to reach out to as many residents as possible.
2	Paragraph 4. Recommendations 4.1–4.8 inclusive. Consensus and support for these recommendations from the O&S Committee.	Exec summary	Local authority	General comment	No action needed	No action needed
2	Additional comments – Recommendation 4.6 – Concur that more could and should be done by pharmacies to promote their services and what they provide and don't provide.	Exec summary	Local authority	General comment	Comment forwarded to commissioner and CPLSC	Comment forwarded to commissioner and CPLSC
2	Perhaps building further community links through education, schools and colleagues about the work and roles of pharmacies in the communities they serve and other service bodies such as the Pendle Leisure Trust in the Pendle BC area. Also, awareness raising through social media platforms or websites could be useful.	All	Local authority	General comment	Comment forwarded to commissioner and CPLSC	Comment forwarded to commissioner and CPLSC

3	Page 41 of the draft PNA states that Silverdale Pharmacy is part of Westmorland HWBB (and this may be similarly referenced across other sections of the draft PNA) – see attached for info This is incorrect. The PNA should report on pharmacies located within the HWBB area concerned, irrespective of whether the pharmacy has a high dispensing volume for residents of another HWBB area. Therefore Silverdale Pharmacy should be regarded as being within the relevant pan-Lancashire HWBB area.	Exec summary and chapter 4	Local authority	Formatting/data correction	Amendment made	Silverdale pharmacy has now been added to the count for Lancashire HWBB - making it 249 pharmacies in Lancashire HWBB
4	This response is on behalf of NHS Lancashire and South Cumbria Integrated Care Board. NHS LSC took on delegated responsibility for the commissioning of NHS pharmaceutical and local pharmaceutical services from NHS England on the 1 July 2022. The ICB will therefore be using the PNA in order to determine routine applications under the NHS Pharmaceutical and Local Pharmaceutical Regulations 2013, as amended. NHS Lancashire and South Cumbria ICB have reviewed the whole document and would like to thank the Health and Wellbeing Boards for writing a thorough PNA and giving the ICB the opportunity to review and comment. There is a clear statement that at present the Health and Wellbeing Board have not identified any need for additional pharmaceutical contracts. The ICB are supportive of that statement.	All	LSC ICB	General comment	No action needed	No action needed
